Summary

Hi, I'm Arati Gavali, a second-year Engineering student specializing in Artificial Intelligence & Machine Learning at ACEM College, Pune. With a strong foundation in mathematics and computer science, I'm passionate about exploring AI technologies and contributing to innovative solutions in the field. Beyond academics, I enjoy expressing creativity through poetry, shayari, dancing, and anchoring, which have helped me build strong communication and confidence..

Education

2024 - 2028

Alard College of Engineering and Management, Maharashtra

Graduation • B.Tech/BE (Bachelor Of Technology/Bachelor Of Engineering) • Artificial Intelligence And Machine Learning Engineering

Percentage - 90% • CGPA - 9

Certification

Introduction to Generative AI Studio

I obtained the Introduction to Generative AI Studio certification from Simplilearn in April 2024, showcasing expertise in prompt engineering and AI model integration. This complements my foundational knowledge, enhancing my ability to develop innovative AI-driven solutions and drive impactful advancements.

Introduction to Prompt Engineering with GitHub Copilot

Happy to share that I've successfully completed "Introduction to Prompt Engineering with GitHub Copilot" This course helped me understand the fundamentals prompt engineering and how modern AI tools are built and applied in real-world scenarios.

DELOITTE

Completed Deloitte Australia's Technology Job Simulation where I worked on real-world data analysis, equality assessment, and dashboard-based insights..

AVINYA 4.0 Hackathon Participation

I had an amazing experience competing in a 24-hour hackathon organized by the Department of Computer Engineering (ACES), JSPM RSCOE. there is multiple rounds including: • Logical & Aptitude Assessment • AI Prompt Engineering Challenge • Real-time Problem Solving Hackathon This event helped me improve my problem-solving skills, creativity, teamwork, and ability to work under time pressure. Grateful for the learning and networking opportunity!

Pitch the idea

Participated in the Pitch The Idea event where I had the chance to transform an idea into a structured solution and present it confidently. This experience enhanced my problem-solving and presentation skills.

Skills

- CSS
- HTML
- Time Management and Organization
- C++ Programming Language
- Communication Skills

Projects

Spotify UI Clone

Feb 2026 – Feb 2026

Designed and developed a responsive Spotify UI Clone using HTML and CSS Focused on layout structuring, color themes, and user interface design Implemented clean and organized CSS for better readability and responsiveness Improved understanding of front-end development and UI/UX principles

Achievements

FIRST YEAR RESULT

Secured 9.0 CGPA in First Year Engineering, ranking among the top students in the class Achieved 2nd rank in the class based on academic performance Successfully designed and completed a Spotify UI Clone project using HTML and CSS Actively participated in technical events and presentations Recognized for public speaking and teamwork skills in academic activities
